

Course Title: IOSH Safety for Senior Executives

Duration: 1 day

Who should attend?

This course is aimed at people with strategic responsibilities for health & safety & prepares Senior Management for the new Corporate Manslaughter & Homicide legislation.

Course Objectives and Expected Outcomes

To provide delegates with the ability to review policy and strategies, and, where necessary, introduce changes to make their organisation operate more safely.

Having attended the course delegates should:

- Understand the health & safety role & responsibilities of senior executives.
- Recognise the importance of integrating health & safety objectives with other business objectives in order to minimise the overall risk.
- Take account of health & safety aspects during strategic planning, decision making & effective supply chain management.
- Know the consequences of failing to manage health & safety effectively.
- Understand the principles of OSHMS, continual improvement & annual reporting.
- Understand the implications of the new Corporate Manslaughter & Corporate Homicide Act 2007 & the IoD & HSE Guidance

Delegates will receive a comprehensive training pack. Delegates who successfully complete the training will be issued with a Tetra Certificate of Attendance.

Course Overview

- Health and safety as a main line management function, emanating from the top and descending through management layers.
- The financial implications of accidents and ill health caused by working conditions.
- Current legislation, particularly the Health and Safety at Work etc. Act and the Management of Health and Safety at Work Regulations, and other regulations relevant to the particular workplace.
- Penalties for offences related to health and safety legislation, including the concept of corporate manslaughter.
- Documentation and procedures to satisfy legislation.
- The root causes of accidents.
- The law's shift in emphasis to a non-prescriptive approach based on the assessment of risk in terms of best current practice.
- Basic principles of risk assessment.
- The need to appoint competent people to advise on the health and safety function.
