

Directors Update

Course Outline

Directors Update aims to ensure that safety and health is appreciated by people at the most senior levels. The update is designed for those who are the controlling mind of the organisation or have ultimate responsibility of the health, safety and welfare of their employees.

Course Objectives

The course should enable top executives to review policy and strategies, and, where necessary, introduce changes to make their organisation operate more safely and therefore focuses on:

- Health and safety as a main line management function, emanating from the top and descending through management layers.
- The financial implications of accidents and ill health caused by working conditions.
- Current legislation and enforcement trends.
- Penalties for offences related to health and safety legislation, including the concept of corporate manslaughter.
- Documentation and procedures to satisfy legislation.
- The need to appoint competent people to advise on the health and safety function.

Duration

Flexibility is a key factor, typically the course is delivered in two-three hours.

Venue

In order to keep costs down the courses will normally be run at the client's location. However, appropriate venues can be arranged by Tetra at an additional cost.

Cost

Please contact the office for costings.
